

csmp::Region::VolumeIntegral

csmp::Region::VolumeIntegral
_x_Thickness

csmp::Region::Volume

```
graph LR; A[csmp::Region::VolumeIntegral] --> C[csmp::Region::Volume]; B[csmp::Region::VolumeIntegral_x_Thickness] --> C;
```

The diagram illustrates a relationship between three classes. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'csmp::Region::VolumeIntegral'. The bottom box contains the text 'csmp::Region::VolumeIntegral' followed by '_x_Thickness' on a new line. Two blue arrows originate from the right side of these two boxes and point towards a single gray rectangular box on the right. This gray box contains the text 'csmp::Region::Volume'. The arrows indicate that both 'csmp::Region::VolumeIntegral' and 'csmp::Region::VolumeIntegral_x_Thickness' are associated with or inherit from 'csmp::Region::Volume'.
