

Loki::CompileTimeError
< int >

The diagram illustrates inheritance between two C++ template classes. At the bottom is a white box representing the base class, `Loki::CompileTimeError< true >`. An orange arrow points upwards from this box to a gray box at the top, representing the derived class, `Loki::CompileTimeError< int >`. To the right of the arrow is the text `< true >` in gray, indicating the template argument of the base class.

< true >

Loki::CompileTimeError
