

non-GIT-files/VariableSet
_TracerTransfer.h

```
graph BT; A["source/includes/integration/finite_volumes/generic_transport_scheme/ExplicitTransport.h"] --> C["non-GIT-files/VariableSet_TracerTransfer.h"]; B["source/includes/integration/finite_volumes/generic_transport_scheme/ImplicitTransport.h"] --> C;
```

The diagram illustrates a header file dependency. At the top, a grey box represents the header file `non-GIT-files/VariableSet_TracerTransfer.h`. Below it, two white boxes represent source files. The left box is `source/includes/integration/finite_volumes/generic_transport_scheme/ExplicitTransport.h` and the right box is `source/includes/integration/finite_volumes/generic_transport_scheme/ImplicitTransport.h`. Blue arrows point from each source file box up to the header file box, indicating that both source files include this header.
