

csmp::LinearTwoPhaseModel
::dfds

csmp::LinearTwoPhaseModel
::dGds

csmp::LinearTwoPhaseModel
::krw_Phase

```
graph LR; A["csmp::LinearTwoPhaseModel::dfds"] --> C["csmp::LinearTwoPhaseModel::krw_Phase"]; B["csmp::LinearTwoPhaseModel::dGds"] --> C;
```

The diagram illustrates a mapping or inheritance relationship. On the left, there are two separate boxes, each containing a namespace-qualified identifier: 'csmp::LinearTwoPhaseModel::dfds' in the top box and 'csmp::LinearTwoPhaseModel::dGds' in the bottom box. Both of these boxes have a blue arrow pointing towards a single, larger box on the right. This right-hand box is shaded gray and contains the identifier 'csmp::LinearTwoPhaseModel::krw_Phase'. This visualizes how two distinct components or methods on the left are associated with or mapped to a single component on the right.
